# 6th Annual Humboldt Homebrew Festival

April 2, 2016

Arcata Community Center

Dear Sponsor,

Please take a moment to consider donating to the Engineers Without Borders North Coast Professional Chapter's 6<sup>th</sup> Annual Humboldt Homebrew Festival. Our fundraiser supports community-driven development programs worldwide by collaborating with local partners to design and implement sustainable engineering projects, while creating transformative experiences and responsible leaders.

EWB-NCP is a local chapter of the national 501(c)3 organization EWB-USA. EWB-NCP is comprised of professional engineers in Humboldt, Del Norte, Mendocino and Trinity Counties as well as students from the Environmental Resources Engineering program at Humboldt State University. We are currently working on:

- Constructing a water well for a hospital in Camoapa, Nicaragua
- Assessing and enhancing a wastewater treatment plant in La Manzanilla, Mexico
- Constructing a rainwater catchment system in Salyer, California
- Constructing a rain garden at Hoopa Valley High School
- Supporting and mentoring the HSU student chapter

Funds raised at the Homebrew Festival are often matched by our project partners and local organizations. These matching funds allow our fundraising efforts to grow exponentially.

Please do not hesitate to contact us with any questions you may have.

Regards,

Brett Vivyan
